# Job Mapping – Industry Forecast

Students aligned already with their chosen career pathway. At this stage, you are required to:

- Develop the right skills relevant to their chosen educational and career pathways
- Build a career roadmap (programming) from education to knowledge to full time work
- Fully equip and prepare themselves with the right tools to land into their chosen job

Based on these critical characteristics, our general and creative courses for undergrad students are designed to equip the students to apply their minds in self-developing the right skills and techniques required to drive their chosen pathways and industries.
